

Band bio/history- the Band started about 2 years ago. I was looking for a band. I answered a BandMix ad for a drummer. When I walked in, a guy I knew from the neighborhood was fronting. Eventually, he, the lead guitarist, and I left and started our own band. Key Milestone- were a six-piece band for a year until I made the decision to reduce the footprint to a four-member band, and we have taken off from there. Band description: We are a Classic Rock, Country & Blues cover band. Technical requirements: We are four members- Lead vocals / rhythm guitar, lead guitar, bass, and Drums. We have a full professional sound. Our bass player is a sound engineer and plays with us. We also have lights. A typical show lasts 3- 3.5 hours. Links & Media- I wouldn't say professional photos, but we do have a Facebook page that does have photos, as well as videos on it.
